SUMMARY

I am an innovative Frontend Developer with over 3 years of experience in crafting scalable and interactive web applications utilizing technologies such as React.js, Next.js, and TypeScript. I specialize in implementing AI-powered features and creating user-centric interfaces that enhance business performance. My experience includes leadership in code optimization and delivering SaaS solutions in various industries

EXPERIENCE

Software Developer

Solguruz LLP

11/2023 - Present Ahmedabad

Software Development company specializing in SaaS and AI solutions

- Leading end-to-end frontend architecture and performance optimization for SaaS and AI-powered platforms using Next.js and React.js

- Conducted 30+ interviews, mentored junior developers, and achieved 25% faster UI performance through optimization

Frontend Developer

WiseSkulls LLC

07/2022 - 10/2023 Ahmedabad

A technology company focused on creating engaging web applications

- Built and maintained modern, responsive React applications with seamless API integration and modular design
- Collaborated with backend and design teams to deliver pixel-perfect interfaces and improve user engagement
- Enhanced state management and overall code scalability using Redux and TypeScript

EDUCATION

Bachelor of Engineering (Mechanical)

Gujarat Technological University

01/2016 - 01/2020 Gujarat

GPA

8.09 / 10

St Stephens high Sec School

High Secondary Education

03/2014 - 03/2016 Dahod

Percentage

70.7 / 100

SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, ES6+, Redux, Tailwind, ANTD, HTML, SCSS, Git

Backend & AI

Node.js, GraphQL, Strapi, REST APIs, MongoDB, MySQL, Feather.js, Gemini API, OpenAI, Intelligent Workflow Automation

Tools & Platforms & Others

Git, GitHub, NextAuth, SEO Optimization, Cross-Browser Compatibility, Performance Tuning

KEY ACHIEVEMENTS

Rising Star Award

Rising Star Award at Solguruz for leading frontend revamps and implementing AI-driven automation to enhance productivity

PROJECTS

Recaply

Offline meeting summarizer

- AI-powered offline meeting summarizer built using Next.js, React.js, Node.js, Gemini API, and AWS Transcribe for real-time transcription, translation, and summarization

Hotel Management Platform

Hotel staff/property Management Platform

- Developed using React.js and Ant Design, offering role-based access, booking management, and data visualization dashboards for real-time hotel operations

Property Management System

Property, mortgage, real estate agent Management System

- Built with React.js, Vite.js, and Feather.js, enabling loan tracking, insurance management, and admin dashboards with high data accuracy and performance

TravelEase

TravelEase (Tours & Travel CRM)

- Developed using Next.js, React.js, Node.js, and MongoDB, providing enquiry-to-booking conversion, commission tracking, and monthly report automation for travel agencies

Messenger & Expense Tracker Apps

Messenger & Expense Tracker Apps

- Created using Next.js, React.js, MongoDB, and Node.js, featuring real-time chat, secure authentication, and intuitive expense categorization with offline support

BenchPage

Benchsales and Recruiter management platform

- Social networking app for recruiters and bench sales professionals built with React.js, Node.js, and MySQL, offering real-time chat, resume generation, and analytics features

Grocery App

Grocery management application

- E-commerce platform built using Next.js, NextAuth, and React.js (admin panel) with secure authentication, product management, and order tracking dashboards

CERTIFICATION

React Developer (w/ Redux, Hooks, GraphQL)
